

Occupation: Ordinary Life

Photos and stories from a five month journey
in 2004-05 to Palestine and Israel by Skip Schiel

Available for showing in your community

A presentation about one person's experience of the reality of occupation in Palestine. The threat of suicide bombings, the Separation Wall, checkpoints, road barriers and other elements of the Matrix of Control are only one part--a major part--of Palestinian and Israeli reality. Not to be overlooked is the splendid work done by the Friends School in Ramallah, and the startling vision of Jean Zaru leading the resurrection of the Friends Meeting House also in Ramallah. In addition, this land is known as the Holy Land and the Promised Land. What's so holy, what's so promised? Come see, listen and converse.
